For the Graduate

Capture some of the picturesque Upper Peninsula along with great memories as we travel to **up to five outdoor locations** to begin your senior year memories. An indoor studio can also provide controlled lighting with black and white backgrounds for strong contrast and a striking effect.

Before we begin your once-in-a-lifetime photo shoot, consider what else you would like in the photo to give it that extra special and personal touch such as a musical instrument, pet, automobile or sporting equipment.
